# Order Process

## 1. Specification Check

Confirm base width, pile height, material, color, adhesive backing, installation method and target application.

## 2. Sample Confirmation

Arrange samples where needed to verify fit, appearance and practical performance before production.

## 3. Packing Control

Confirm roll length, carton quantity, labels, shipping marks and export packing details.

## 4. Export Support

Prepare commercial invoice, packing list and shipment communication for import buyers.

# Request a Quote

Please send drawings, profile photos, required quantity, packing requirements and target market. Arctivex will review the details before preparing a practical offer.
